School Policy on Educational Risk

Yas American Academy has established and implements a comprehensive policy that identifies and supports the diverse needs of all students, ensuring each student attains and progresses according to the school's set benchmarks.

Yas American Academy supports students following this process:

1. Identification of students at educational risk
2. Development of interventions
3. Monitoring and Evaluation

To support Yas American Academy organise dedicated professional development sessions to ensure that staff who interact with students are aware of the school's policy on support for students at educational risk.

Identification of Students at Educational Risk

Yas American Academy carry out ongoing analyses to identify students who may be at educational risk using a range of evidence-based factors/indicators. These include, but are not limited to, any cause for concern related to:

- Academic achievement
- Students attendance
- Students wellbeing
- Students behaviour
- Additional learning needs
- Extenuating circumstances affecting the students, family or close connection

- Educational, health or welfare assessments sourced by the school with parental consent or provided to the school by families
- Linguistic difficulties
- Parental engagement
- School transfer frequency
- Referrals from staff, parents and/or students

If a student is identified as being at risk of harm due to maltreatment, we shall immediately follow protocols outlined in the ADEK School Student Protection Policy.

Yas American Academy will ensure that this identification is only to be used as part of an internal exercise for the purposes of meeting student needs and is kept confidential to protect student privacy and wellbeing. Results of the analysis may be shared with specific stakeholders on a need-to-know basis at the school's discretion.

Developing Interventions

At Yas American Academy we adopt a tiered model of support:

Tier 1 (Universal): Quality First Teaching provided to all students in the classroom, based on building positive relationships and a supportive environment. Student progress is continually monitored and students unresponsive to Tier 1 interventions may move into Tier 2.

Tier 2 (Targeted): Supplemental targeted teaching provided to students who have difficulty making adequate progress in meeting academic and behavioral goals. Programs and strategies are based on small-group specialised interventions designed to supplement Tier 1 interventions to allow students to catch up to their peers. Student progress is continually monitored and students unresponsive to Tier 2 interventions may move into Tier 3.

Tier 3 (Intensive): Specialised and individualised intensive teaching that requires highly personalised intervention specific to the needs of the student and may include assistance from external specialists. Student progress is continually monitored.

Tiers do not define student identities but instead identify types of support based on student needs. Hence, we shall decrease or increase student support following an evaluation of the effectiveness of any intervention.

For each year group, we create a "Year Group on a Page," which collates a variety of data to provide a holistic overview of the cohort. This serves as the first point of identification for students who may be at risk and require additional support. It enables us to highlight key students who need bespoke or enhanced strategies to help them access the curriculum effectively.

For Senior School students we also create a "Provision on a Page", which tracks individual students attainment and progress within their option subject and this is discussed in the weekly examination meeting.

Yas American Academy plans and implements interventions using a comprehensive, systematic, and tiered approach based on:

1. Assessing the underlying factors leading to a student being at educational risk
2. Meeting the needs of students at educational risk holistically through a school-home partnership and whole-school approach to aim for improvement that is supported in both contexts
3. Implementing high-quality, research-based interventions that are culturally and linguistically relevant
4. Adapting teaching to support inclusion and the belief that every student can learn and achieve their potential
5. Integrating a data-collection and evidence-based assessment system, including universal screening, diagnostics, and progress monitoring to inform decisions appropriate for each tier of support
6. Using school-wide and classroom-research-based positive behavioral approaches to support student achievement and social-emotional learning.
7. Implementing a collaborative approach to analysing student data and coordinating the intervention process

Yas American Academy is committed to ensuring that all students at educational risk receive targeted, high-quality support. To achieve this, the leadership team will both directly coordinate and oversee interventions for at-risk students while also supporting wider school teams in managing interventions within their respective departments. This includes collaboration with the school counselling service to ensure that the support provided is subject-specific, needs-appropriate, and delivered by the most suitable member of the YAA team, ensuring a high level of expertise in intervention delivery.

The term "intervention team" is an all-encompassing designation that includes any skilled member of staff involved in supporting student interventions. As part of our commitment to inclusive education, Yas American Academy develops and implements interventions—including, where required, Individualized Education Plans (IEPs)—that enhance learning opportunities for all students at risk. This is achieved through the following method:

Activating a school-based intervention team to directly coordinate and oversee interventions for at-risk students, while also guiding and supporting teachers in developing and implementing subject-specific and needs-appropriate interventions. The intervention team will ensure that students receive the appropriate level of support from the most suitably skilled member of the Mamoura team, maximising the effectiveness of the intervention. The recommended intervention team membership consists of:

- A member of the ELT, the Head of Inclusion, or the inclusion team
- The School Counsellor
- Additional skilled staff members as required, ensuring that interventions are tailored to student needs and delivered by professionals with the relevant expertise.

The team will:

- Involve the student identified as being at educational risk, whenever possible and appropriate, and their teachers in planning any individualised intervention as required
- Employ a combination of approaches to increase protective factors and reduce risk factors that influence the wellbeing and educational, social, and emotional development of the student at educational risk, in line with the ADEK wellbeing policies
- Allocate available resources to support individuals and groups of students at educational risk
- Identify the need for specialist intervention (including referral to external agencies), where appropriate, to parents, in line with the ADEK School In-School Specialist Services Policy and the ADEK School Student Mental Health Policy
- Verify that teaching staff provide the necessary teaching and learning adjustments and manage allocated resources to address the diverse needs of all students at educational risk
- Ensure that the Yas American Academy involves relevant internal and external stakeholders (e.g., specialists, parents, etc.) when planning for students at educational risk

Monitoring and Evaluation

Yas American Academy shall continuously monitor and evaluate the effectiveness of the implementation of this policy by:

1. Using a comprehensive range of assessment methods to collect data that can be used to inform the progress monitoring of students at educational risk
2. Establishing a schedule to monitor and evaluate the status of each student at educational risk and, where applicable, update students' DLPs and level of tiered support in line with their progress
3. Providing parents of students at educational risk with ongoing, accurate, and relevant information about their child's progress where appropriate
4. Storing and safeguarding data for all identified students in a digital format that may be shared with ADEK upon request or as part of a school inspection visit

Roles and Responsibilities ELT/Inclusion Team

- Set the strategic direction for the Academy ensuring a commitment to supporting students at educational risk

- Ensure that the policies related to educational risk are effectively implemented and followed within the school
- Allocate necessary resources to support educational interventions and monitor the effectiveness of these programs
- Activate a school-based 'intervention team' to guide and support teachers in developing and implementing interventions for students identified as being at educational risk
- Continuously monitor and evaluate the effectiveness of interventions and make data-informed decisions to adjust support as needed

Middle Leaders

- Provide support to teachers in developing and implementing, as required, educational plans and interventions for students at risk
- Collaborate with the ELT/Inclusion Team in assessing the needs of students and ensuring that appropriate steps are taken based on their evaluations
- Assist in collecting and analysing data to inform decisions regarding student progress and interventions

Teachers

- Deliver high-quality, quality first teaching tailored to all students, particularly those at educational risk
- Follow school process when referring students that is at educational risk
- Ensure that identified students are fully aware of their individual targets and the purpose of any interventions, to foster their engagement and ownership of their learning journey
- Adapt teaching strategies and resources to meet the diverse needs of students and ensure that all students can achieve their potential
- Maintain ongoing communication with parents and stakeholders regarding students' progress
- Work in conjunction with the 'intervention team' and support staff to track students' progress and effectiveness of implemented strategies

Compliance & Review

This policy is effective from the Academic Year 2024/25 (Fall term), in alignment with the Abu Dhabi Department of Education and Knowledge (ADEK) requirements. Full compliance is mandatory from the Academic Year 2025/26 (Fall term).

Yas American Academy is committed to upholding the highest standards of student protection and educational practice. Failure to comply with this policy may result in accountability measures and penalties as outlined in ADEK regulations and policies, including those stipulated under Federal Decree Law No. (31) of 2021 Promulgating the Crimes and Penalties and its

amendments, or any other relevant UAE laws. ADEK reserves the right to review, audit, or intervene should the Academy be found in violation of its obligations.

Review:

This policy will be formally reviewed every five (5) years, or sooner should ADEK issue new requirements or related policies be updated. The Executive Leadership Team (ELT) at Yas American Academy will ensure that any updates or directives from ADEK are incorporated immediately, regardless of the scheduled review cycle, to ensure full alignment with compliance expectations.
